leather strap and sapphire coated glass, it makes for a delightful sight on your wrist. Available in all modern plating versions, it is fitted with an automatic Japanese move-ment. Gift yourself one and discover the magic of luxury now available at all the leading outlets in India.

from, this one is a promising investment. With a genuine combines chic and masculine. With a variety to choose wardrobe. Designer with their Elysian innovation in watches A stylish timepiece is a must have in your

and generates mechanical, electrical and electromagnetic power and is less affected by temperature variations. The watch is constructed with a high-intensity titanium casing and sapphire crystal glass with anti-reflective coating. It has a nylon strap, while the limited edition serial number is engraved on the case back.

The Seiko Spring Drive Spacewalk was the first watch designed specifically for use in outer space. It was used by Richard Garriott, for his famous spaceflight. Now, a commemorative edition is available through selected Seiko retail outlets across the world. Instead of a traditional regulator, the revolutionary Spring Drive has a tri-synchro regulator that uses
